While Orman is known for giving wide-ranging financial advice on everything from mortgages to retirement plans, because of the economic challenges and disparities in this city and beyond, her emphasis for this program will be to provide important financial information specifically for the empowerment of low-income or economically struggling women of color and women in general.

Laura Greer, Apollo Theater Associate Producer said, "We really wanted to address women who are trying to 'make ends meet.' The women who aren't at the point of thinking about 401Ks and investments yet. We want to reach out to very specific community organizations, churches and civic associations to comprise the audience for this

program.” Having financial freedom can often impact the challenges and obstacles that women face – from situations of domestic violence, sexploitation to accessing healthcare and education.
